

SafeShare.TV: Distraction Free You Tube Videos

SafeShare.TV is a great way to use You Tube with your class. The kids can be distracted by the extra information on the You Tube page and....worse yet....you never know what may come up there... SafeShare.TV provides you with a window that only shows the video you have selected.

- Find the You Tube video you want to show to your class and copy the URL (link) from the address bar
 - right mouse click, copy

- Go to SafeShare.TV and paste the link into the space provided
 - right mouse click, paste

- Click "Generate safe link"

Generate Safe Link

Massive Dolphin Party

[Take me to the safe view >>](#)

- Copy the “safe” URL
 - Right mouse click, copy

Return to your Powerpoint and use this address for your hyperlink.
